

Course Name: COMPUTER GRAPHICS						
Course Code:CO306						
Rubric for Assessing: Knowledge and Skills attained to develop computer graphics application, learnt during the Course.						
Rubric title: Laboratory Assignment-Mini Project						
Maximum Marks:30						
Criteria	Score	Exemplary (5)	Satisfactory (4)	Fair (3)	Unsatisfactory (2)	Rejected (0)
Understanding		Student can explain working procedure of all functions used in the project	Student can explain working procedure of most functions used in the project	Student can explain working procedure of some (main functions) functions used in the project	Student can explain working procedure of few (main functions) functions used in the project	Student could not explain working procedure of functions used in the project
User Interaction		Project includes keyboard and mouse handling events (more than 3 events)	Project includes keyboard or mouse handling events (3 events)	Project includes keyboard or mouse handling events (2 events)	Project includes keyboard or mouse handling events (1 event)	Project does not include keyboard or mouse handling events.
Object Representation		Project includes use of 3D and 2D Objects. (more than one objects)	Project includes use of 3D Object. (more than one objects)	Project includes use of 2D Objects. (more than one objects)	Project includes use of 2D Object (one object)	Project does not include use of 2D Object or 3D objects.
Object Transformation		Project includes Motion of the object/objects in more than four principle directions (more than one object)	Project includes Motion of the object/objects in four principle directions (more than one object)	Project includes Motion of the object/objects in linear fashion (more than one object)	Project includes Motion of the object/objects in linear fashion (one object)	Project does not include Motion of the object/objects.
Object Filling (Color and Shading)		Project includes appropriate usage of colors and shading and texture.	Project includes appropriate usage of colors and shading.	Project includes appropriate usage of colors.	Project does not include appropriate usage of colors.	Project does not include usage of colors.
Object Clipping		Project include interactive clipping window concept which shows appropriate result of image after clipping.	Project includes clipping window (not interactive) concept which shows appropriate result of image after clipping.	Project include interactive clipping window concept which does not shows appropriate result of image after clipping.	Project includes clipping window (not interactive) concept which does not show appropriate result of image after clipping.	Project does not include clipping window.
